

Our Safety Mission

Protecting our employees, contractors, the public and the environment is a core value at Range Resources. It must be a part of every aspect of our business.

Environmental, Health & Safety is a process led by senior management and implemented by line management. Each level is accountable to the one above and responsible for the one below. This is achieved by a belief in and adherence to the values of Trust, Respect, Integrity and the continual Pursuit of Excellence. The following commitments and operating principles guide our daily operations. They must not be compromised.

- Comply with all applicable occupational, safety, health and environmental laws and regulations.
- Design and operate our sites and facilities utilizing best practices.
- Ensure all managers, supervisors, and employees, and those of our contractors, know and understand safety, health and environmental responsibilities.
- Measure safety, health and environmental performance to promote continued improvement.
- Provide training to support individual safe performance and regulatory compliance.
- Provide the resources and professional staff to support safety, health and environmental programs.
- Manage risk through diligent anticipation, recognition, evaluation and correction of, and response to, hazards in the workplace.
